

## Basic Skills Assessment Coursework Resources

This document provides basic skills preparation information for all two and four-year colleges and universities including credit courses, non-credit courses, and/or workshops for preparation on the Basic Skills assessments (ex: SAT, ACT, Praxis Core) required for Maryland State certification. Workshops do not have specific information here as institutions offer a variety of small group instruction and one-on-one tutoring opportunities. It is suggested to contact the designee at an institution before enrolling in specific credit courses, non-credit courses, and workshops focused on preparation on the Basic Skills assessments. In addition, the contact information for all two-year and four-year educator preparation programs in the state is provided below.
