

EXTENSION OF PROPOSAL DEADLINE FOR LEARNING IN EXTENDED ACADEMIC PROGRAM GRANT

The Maryland State Department of Education (MSDE) is extending the deadline for submission of the Learning in Extended Academic Program Grant (LEAP) proposals. This extension is necessary due to the recent opening of school to afford administrators an opportunity to conduct collaboration sessions with all stakeholders, complete a needs assessment and to develop an appropriate root cause analysis that will address deficiency areas with the highest probability of being successful towards academic achievement.

All proposals **must** be electronically submitted in one pdf document no later than 2:00 p.m. (Eastern Time) on Tuesday, October 2, 2018, to:

leaprfp.2018msde@maryland.gov

Include the lead agency and program name in the email subject line. Each applicant will receive an email confirming receipt of the proposal and the time received by the MSDE. Should you need additional information, please contact Mary Gable, Assistant State Superintendent for the Division of Student Support, Academic Enrichment, and Educational Policy, at mary.gable@maryland.gov or 410-767-0472.
