Attorney General’s Certification

In accordance with State Government Article, §10-113, Annotated Code of Maryland, the Attorney General certifies that the following changes do not differ substantively from the proposed text. The nature of the changes and the basis for this conclusion are as follows:

The changes to the proposed text of the following regulations are nonsubstantive because the agency is removing the proposed text and revertering to the original existing regulatory language: (1) 13A.15.02.07A(2) and (7)(c) Denial of a Registration Application; (2) 13A.15.03.02B Admission to Care; 13A.15.03.04C(2)(a) Child Records; 13A.15.08.01D, E, F, Child Supervision; and 13A.15.13.07A(2) Revocation.

An amendment to a proposed regulation is considered substantive if it substantively affects “the rights, duties, or obligations of: (1) a member of a regulated group or profession; or (2) a member of the public.” State Government Article, §10-101(1h), Annotated Code of Maryland. Regulated stakeholders support MSDE’s reversion to the original regulatory language in the above regulations. Regulated stakeholders and interested parties are not disadvantaged by the agency removing the proposed changes to the regulations and maintaining the existing language and requirements. The above changes maintain the benefits of the existing regulations and do not increase the burdens on regulated stakeholders that would have been imposed by the regulations as proposed. Because the changes do not change the position of any group affected by the regulation, decrease any benefits, or increase administrative burdens, they are deemed nonsubstantive. Reversion to the original language is consistent with nonsubstantive changes as discussed in 75 Md. Op. Atty. 27 (1990).

An amendment to a proposed regulation is considered substantive if it substantively affects “the rights, duties, or obligations of: (1) a member of a regulated group or profession; or (2) a member of the public.” State Government Article, §10-101(h), Annotated Code of Maryland. Regulated stakeholders support MSDE’s reversion to the original regulatory language in the above regulations.
