# **BOOST Assessment Performance 2017-2018 Results**

# Background

BOOST Assurances for Participating Schools, School Year 2017-2018 included:

- a) Eligible BOOST schools are those that will administer assessments to all students:
  - a. In math and reading- annually, in each of grades 3 through 8
  - b. In science, once in elementary school, and once in middle school
  - c. In biology, government, Algebra I, and English 10 in high school
  - d. And, to all students with disabilities, consistent with their Individualized Education Program (IEP)

Maryland law (House Bill 150; the Fiscal 2018 Budget Bill) states the following regarding assessment performance reporting:

"For nonpublic schools administering norm referenced assessments, the nonpublic schools shall provide to MSDE the results for all students receiving BOOST Program scholarships to whom assessments were administered.

For those nonpublic schools administering non–standardized assessments, the nonpublic schools shall provide to MSDE the results for all students receiving BOOST Program scholarships to whom assessments were administered and how students receiving BOOST Program scholarships performed in comparison to students who did not receive BOOST Program scholarships.

MSDE shall report these assessment results reported by nonpublic schools to the budget committees in an aggregate manner that does not violate student data privacy."

By signing the BOOST Assurances for Participating Schools, School Year 2017-2018, participating nonpublic schools agreed to report assessment performance results to the MSDE. In order to meet the December 15, 2018 reporting deadline, assessment performance results presented in this report are based on the prior academic year (2017-2018).

# **Methods**

The MSDE collected SY 2017-2018 assessment performance data from nonpublic schools between July 31 and November 16, 2018.

The MSDE created a secure online application in which schools could enter the requested assessment performance data. A Data Collection Manual (PDF file) was also created, which provided instructions for completing and submitting the completed data collection.

# **Results**

The MSDE requested assessment performance data from the 161 nonpublic schools that participated in the BOOST program for in SY 2017-2018. Table 1 summarizes the responses from nonpublic schools. Tables 2 through 9 present results for 2017-2018 norm-referenced assessment performance and Tables 10 through 17 present data for 2017-2018 non-standardized assessment performance. Individual school-

level data are presented in Appendix A. County-level data (based on the geographic location of the school) are reported in Appendix B.

The data presented in this report is self-reported by participating BOOST nonpublic schools and is not subject to a thorough verification and audit process by the MSDE. These results should be interpreted with caution. The data presented here in aggregate do not reflect results of a common assessment. Each school was obligated to assess students, but the assessments administered and the determinations of proficiency were at the discretion of each individual school. Therefore, assessment results are not comparable across schools. Further, Maryland law requires the MSDE to report results in a manner that does not violate student data privacy. A '\*' indicates no students or fewer than 10 students in the category.

#### Scholarships Awarded and Accepted by School County Location and School Name

as of December 30, 2018

Note:

In the data below, as of December 30, 2018, there are 32 scholarships that cannot be paid for one or more of these reasons in each case:

- Enrollment of the student was not confirmed by the school;

- The school did not submit assessment results as required;

- The school did not complete the survey on the certification status of its teachers;

- The student received non-BOOST aid that covered the full cost of tuition, resulting in a reduction of the BOOST award to zero.

#### Scholarships Awarded and Accepted by School Name and Type of School Previously Attended

as of December 30, 2018

Note:

In the data below, as of December 30, 2018, there are 33 scholarships that cannot be paid for one or more of these reasons in each case:

- Enrollment of the student was not confirmed by the school;
- The school did not submit assessment results as required;
- The school did not complete the survey on the certification status of its teachers;
- The student received non-BOOST aid that covered the full cost of tuition, resulting in a reduction of the BOOST award to zero.

#### **Reasons for Declining:**

Following are the top reasons that parents cited anecdotally in their emails to MSDE to decline an award:

- Student was accepted at a public charter school
- Student was not accepted into the selected BOOST school/Nonpublic School no longer participating
- Cost is too high, even with BOOST Scholarship
- Parent decided to send the student to a nonpublic school that does not participate in BOOST.

Notes:

Renewal applicants who are still income eligible received an award based on their Free or Reduced Meal income status as indicated in the 2018-2019 application. The Public or Private School designation for Renewal applicants is kept the same as it was in 2016-2017.
