Title:	Career and Technical Education: Comprehensive Local Needs Assessment
Security Level:	Public and Shareable
File Name:	CLNA Secondary.docx

DOCUMENT HISTORY

Document Version	Date	Summary of Change
1.0	February 2024	Initial Document
2.0	March 2024	Modified: Formatting for accessibility Added: State Level Performance Data Added: Appendices with Strategies and Resources to Consider
3.0	April 2024	Modified the data tables in Activities B.1 and B.4.

Purpose

The federal Strengthening Career and Technical Education for the 21st Century Act (Perkins V), provides funding to support educators in developing the technical and employability skills and academic knowledge of secondary and postsecondary education students enrolling in career and technical education (CTE) programming.

Perkins V requires that grant recipients complete a Comprehensive Local Needs Assessment (CLNA) every other year to identify needs or gaps that should be addressed to strengthen the delivery of high-quality CTE programming.

The Maryland State Department of Education (MSDE) has created this document to assist LEA in conducting your CLNA. Information contained within it will assist local education agencies to align improvement efforts with the College and Career Readiness Pillar contained in the Blueprint for Maryland's Future. Key action steps include assessing the alignment of CTE programs of study (POS) to labor market needs; reviewing student participation and performance in CTE coursework; evaluating site progress in making CTE offerings accessible to students; and considering efforts to recruit, train, and retain CTE instructors.

Results from this CLNA should be incorporated into the LEAs Perkins V Local Application, which details how you plan to use federal funds to improve CTE instruction and expand equitable student access to quality programs.

The CLNA and the Local Application will be reviewed and approved on a rolling basis, and must be fully completed by the LEA, negotiated (LEA and MSDE), and approved by the State Director of Career and Technical Education or their designee prior to July 1st of each year.

Appendices A - E are included in this document that may help you align your priorities to your Local Application. If you have questions about how to use this guide, please contact your designated Secondary Program Coordinator in the Office of College and Career Pathways.

Instructions

Conducting this needs assessment could take several months to complete and must precede the creation of your Perkins V Local Application.

This guide provides a framework to help you investigate the status of your CTE programming and identify areas for improvement. It is organized into six sections:

- Guiding Principles
- Assembling a Stakeholder Team
- Component A: Labor Market Alignment
- Component B: Student Participation and Persistence
- Component C: Program Performance
- Component D: Professional Development

While you may choose to cover topics in any order, you should begin by assembling a stakeholder team to inform your effort. This group must include representatives from the stakeholder groups that are identified in the Perkins V legislation.

You may complete this document online or electronically by typing directly into the provided fillable fields. Alternatively, you may print out a copy of this form and enter information by hand. Do not alter or remove sections. Those choosing to complete the document offline should upload a completed copy using SharePoint.

Guiding Principles and Logic Model

OVERVIEW

MSDE has identified a set of guiding principles to inform the creation of CTE programming. It includes the expectation that all learners should have access to high-quality CTE coursework that:

- aligns to high-skill, high-wage, in-demand careers,
- leads to industry-recognized and/or postsecondary credentials that supports entrance or advancement in a specific career cluster, and
- offers career-based learning experiences (e.g., work-based learning, apprenticeship) that require the application of academic and technical knowledge and skills in a work setting.

LOGIC MODEL

Despite the growing emphasis on CTE as a pivotal pathway for students in Maryland, there is a significant gap in the systematic evaluation of current CTE programs. Maryland's dedication to aligning educational experiences with the demands of the real-world labor market faces challenges:

1. **Lack of Comprehensive Oversight:** There isn't a unified method to holistically assess the state's CTE programming capacity. This absence has led to disparities among various student groups across CTE clusters, hindering equitable access to quality education.
2. **Inefficient Funding Application Process:** Potential CTE grantees in Maryland lack a structured Local Application process for Perkins V grant funds, affecting their ability to optimally leverage these resources for student outcomes.

The combined effect of these challenges puts Maryland's CTE programs at risk of not fully aligning with the Perkins V requirements and, more importantly, not meeting the evolving needs of students and the labor market. Consequently, there is an urgent need for a systematic approach to bridge these gaps, ensuring the delivery of equitable, high-quality career and technical training that truly mirrors labor market demands.

LOGIC MODEL CHART

	Strategies	Outputs	Short -Term Outcomes	Long -Term Outcomes	Impacts
Tangible: Funding from Perkins V	Develop a CLNA	Comprehensive report detailing current state of CTE programs	Identification of gaps and disparities in CTE programs	Enhanced quality and inclusivity of CTE programs	A workforce better prepared for Maryland's labor market demands
Tangible: Labor Market Information (LMI) Data	Analyze LMI to align CTE programs with labor market demands	List of high-demand sectors and occupations in Maryland	CTE curriculum adjustments based on labor market needs	Improved alignment of CTE tracks with workforce demands	Higher employment rates for CTE program graduates
Tangible: Interview and Focus Group	Conduct interviews and focus groups with stakeholders	Collection of feedback and insights from stakeholder groups	Immediate feedback loop established with stakeholders	Strengthened collaboration and partnerships	Enhanced stakeholder trust and investment in CTE programs
Intangible: Expertise in CTE Programming	Design a structured Local Application process for Perkins V funding	Guideline document for potential CTE grantees	Streamlined application process for Perkins V funding	Increased number of high-quality grant applications, earlier in the process	Optimal leverage of grant funds for improved student outcomes
Intangible: Stakeholder Relationships	Engage regularly with stakeholders for continuous feedback	Periodic stakeholder engagement sessions	Fostered sense of community ownership and involvement	Stronger community ties and support for CTE programs	CTE programs that resonate more deeply with community needs
Intangible: Knowledge of federal and state education guidelines	Ensure CTE programs align with Perkins V, the Blueprint for Maryland's Future, and other relevant guidelines	Regular compliance checks and reports	Immediate course correction when misalignments are found	Consistent alignment with state and federal guidelines	Sustained funding and support for CTE programs due to compliance

INTERPRETATION

3. **IF** we intentionally and strategically allocate Perkins funding in the planning process, **THEN** we can develop a CLNA leading to a comprehensive report that identifies gaps in the CTE programs, ultimately enhancing the quality and inclusivity of CTE programs and preparing the workforce better for Maryland's labor market demands.

4. **IF** we utilize LMI data, **THEN** we can better align CTE programs with current labor market demands, leading to adjustments in the CTE curriculum, improving the alignment of CTE tracks with workforce demands, and resulting in higher employment rates for CTE program graduates.
5. **IF** we employ interview and focus groups effectively, **THEN** we can gather valuable feedback from stakeholders, establishing an immediate feedback loop, strengthening collaboration, and enhancing stakeholder trust and investment in CTE programs.
6. **IF** we leverage our expertise in CTE programming, **THEN** we can design a structured Local Application process for Perkins V funding, streamlining the application process, increasing the number of successful grant applications, and optimizing the use of grant funds for improved student outcomes.
7. **IF** we nurture and maintain stakeholder relationships, **THEN** we can engage more deeply and regularly for feedback, fostering a sense of community ownership, strengthening community ties, and creating CTE programs that resonate more deeply with community needs.
8. **IF** we stay updated on federal and state education guidelines, **THEN** we can ensure consistent alignment of CTE programs with these guidelines, leading to immediate course corrections when needed, sustained alignment, and thereby securing sustained funding and support for CTE programs.

PROGRAM DESIGN

All CTE programming in Maryland must be delivered through Programs of Study (POS) developed by the state or a local school system. To be considered “state approved,” each program of study must meet these criteria:

- Strengthens the academic, career, and technical skills of students to prepare them for careers and further education.
- Incorporates input from diverse stakeholder groups, including industry and postsecondary partners.
- Fits within one of 10 state-recognized career clusters that help students learn about their work options so that they may make informed career decisions.
- Includes opportunities for students to earn industry or postsecondary credentials and participate in career-based learning experiences.
- Prepares students for both college and careers through the completion of a planned sequence of coursework that blends academic, technical, and workplace skills.
- Incorporates a coherent set of academic, employability, and technical skills based on national and state standards that offer students a competitive advantage in the workplace.
- Offers multiple options to prepare students for entry into careers and further education through articulation agreements, supervised career-based learning experiences (e.g., work-based learning, internship, apprenticeship, etc.), and/or industry-mentored or capstone projects.
- Is based on enrollment and outcome data to inform program improvement and increase student performance.

Refer to these criteria as you conduct your CLNA to ensure your programming is rigorous and of uniformly high quality.

STUDENT ENGAGEMENT

A CTE POS includes a course sequence from grades nine through 12 and two or more years of postsecondary education courses. A student may meet the following thresholds of engagement:

Participant — Student completing not less than one credit in a MSDE approved CTE POS.

Concentrator — Student completing at least two courses in a single MSDE approved CTE POS.

Completer — Student who meets all requirements in a state approved CTE POS.

PROGRAM DELIVERY

Local school systems must meet **Size, Scope, and Quality** criteria to qualify for federal funding.

Detailed information on these and additional expectations relating to CTE programming can be found in Maryland’s [Policies & Procedures for the Development & Continuous Improvement of Career and Technical Education Programs of Study](#).

Any program that fails to meet all the following criteria will need to be brought into compliance or removed from your program approval request, invalidating it for Perkins V funding. While you are not

expected to develop plans to address deficiencies as part of the CLNA process, you are encouraged to assess each CTE POS against these criteria to help prepare for developing your local application.

SIZE
At least two, state-approved CTE POSs are offered in recognized clusters.
Each POS consists of a coordinated, non-duplicative sequence of academic and technical coursework comprising at least 3 credits.
Each CTE concentrator-level course (typically the 3rd in a program) has a minimum of 10 concentrators over a 4-year period. If not, evidence must be offered of continued progress toward meeting this requirement.
Each POS has the required number of staff, availability of equipment, and student access to facilities.

SCOPE
Curricula are aligned to state-approved industry standards that allow students to earn recognized credentials, certifications, licenses, college credit, or degrees
Curricula offer a progression from secondary to postsecondary education and/or employment (including attainment of an industry-recognized credential or apprenticeship), and from community college to bachelor's degree programs
Curricula allow students to learn and demonstrate academic, technical, and employability skills
Curricula include differentiated supports and modifications to meet the needs of diverse learners
Each CTE student has a written career and academic plan in place that includes the: <ul style="list-style-type: none"> • required courses to complete a POS and graduate; • required assessments to earn a certification, license, credential, or degree; • required academic assessments to graduate; and • a timeline to take courses, assessments, and complete career-based learning experiences.
All students, regardless of race, color, national origin, sex, or disability, have equitable access to high-quality CTE programs as required by Code of Maryland Regulation 13A.04.02.04
Approved POSs are guided by Local Advisory Councils and Program Advisory Committees according to the CTE Local Advisory Council and Program Advisory Committee Policies and Procedures (COMAR EA Title 21, Sec. 10.1)
All CTE POS adhere to CTE Development Standards, which are required by Code of Maryland Regulations 13A.04.02.03
All programs meet the definitions for high-skill, high-wage, in-demand occupations

QUALITY
The site achieves or consistently makes progress towards local targets established for state and federal core indicators of performance
POS are delivered by teachers who meet state requirements to teach content at the secondary level
CTE POS are delivered by teachers who earned a minimum of effective on their teacher evaluation as defined by Code of Maryland Regulation 13A.07.09 within three years
Each CTE POS meets all the requirements of the MSDE evaluation criteria found in the Policies and Procedures for the Development and Continuous Improvement of CTE Programs of Study (page 45).
All students, including students in special populations, are offered the opportunity to: <ul style="list-style-type: none"> • Participate in at least one career-based learning experience (e.g., work-based learning, internship, apprenticeship, etc.), • Earn college credit and/or industry credentials, and • Participate in CTSOs.
Professional learning opportunities, informed by data, are provided for administrators, teachers, faculty, counselors and support personnel to improve student learning outcomes. All secondary professional learning must be guided by the Maryland-endorsed National Learning Standards
Local and state annual data-reporting requirements are met, and reviews conducted of all annual Program Quality Index reports to inform improvement

QUALITY	
Human resources are included in the recruitment process to ensure a diverse CTE teacher and faculty member candidate pool	
Metrics are used to ensure that CTE teacher and faculty member recruitment strategies are successful	
Teacher retention rates are reviewed annually, for the most recent 3 years, with data used to identify the top three contributing factors to CTE teacher and faculty member turnover	

Assembling a Stakeholder Team

Assemble a diverse stakeholder team to assist you in conducting your CLNA. Representation in the listed categories is required by federal statute, except where indicated. While Perkins V requires more than one representative for each group (with an exception for CTE coordinators and data analysts), it is permissible for one person to fulfill up to two roles.

STAKEHOLDER TEAM COORDINATOR

[This is the individual responsible for planning and holding stakeholder meetings and completing CLNA]

Name	Tom Porter
Organization	Kent County Public Schools
Title	Supervisor of Accountability and Career and Technical Education
Email	tporter@kent.k12.md.us

STAKEHOLDER TEAM MEMBERS

When Selecting Stakeholders, consider:

- Recruit individuals who are knowledgeable about CTE at your site and influential in the field.
- Ensure that members understand the time commitment and can attend all scheduled meetings.
- Perkins V requires *more than one representative for each group* (with an exception for the coordinators and data analyst). Members may not represent more than two stakeholder groups.
- If you are unable to recruit a member to fulfill a required role you should keep a record of your outreach efforts to demonstrate you acted in good faith.

Stakeholder Team Responsibilities

- Review Maryland Department of Labor employment and projections data, district student participation and performance data, and educator support efforts to identify priority areas for improvement.
- Ensure that program offerings are aligned to local, regional, and/or state employment priorities.
- Help to communicate the importance of delivering high-quality CTE POS in your site and champion local efforts to achieve improvement goals.
- Meet on a quarterly basis to track your progress in improving CTE programming and make annual updates to this needs assessment.

Note that stakeholder team meetings may be held in person, virtually, or using a hybrid approach. If scheduling conflicts make holding a full team meeting impractical, stakeholders may meet in subgroups to review data and consider strategies to strengthen programming. Ultimately, all stakeholders should contribute to identifying challenges and formulating solutions, and publicly support your findings.

Stakeholder Team Roster

SECONDARY

Role	Name	Title	Affiliation
Administration (e.g., principal, assistant principal)	Kris Hemstetter	Principal	Kent County High School
	Mark Buckel	Principal	Kent County Middle School
	Angeline Rivello	Assistant Principal	Kent County High School
Professional career or academic counselor	Brett King	Career Counselor	Kent County Middle / Kent County High School
	Jessica Bennett	Counselor	Kent County High School
	Devon Jenkins	Counselor	Kent County High School
	Tracey Williams	Retired Supervisor of Student Services	Kent County Public Schools
Teachers	Justin Jenkins	Lead CTE Teacher	Kent County High School
	Tim Kelleman	Computer Science Teacher	Kent County High School
Instructional Support and Paraprofessionals (Psychologists, Social Workers, etc.)	Alison McDonald	Student Success Specialist	Kent County High School
	Christina Baxter	Grant Administrator	Kent County Public Schools
	Kolyn Kirby	Technology Instructional Assistant	Kent County High School
	DeLia Shoge	Special Educator	Kent County Middle School

POSTSECONDARY

Role	Name	Title	Affiliation
Administration (e.g., dean, division chair)	Jason Mullen	Dean of Workforce	Chesapeake College
	Dave Harper	Vice President	Chesapeake College
Faculty	Sara ClarkeDe Resa	Associate Professor of Education	Washington College
	Bill Heller	Marine and Mechanical Trades Instructor	Chesapeake College

WORKFORCE

Role	Name	Title	Affiliation
Local Workforce Development board member	Dan Schneckenburger	Executive Director of Workforce Investment Board	Upper Shore Workforce Investment Board
	Shirley Lake	Career Navigator	Upper Shore Workforce Investment Board
*Regional Economic Development organization member	Jaime Williams	Executive Director of Economic Development	Kent County Economic Development and Tourism
	Sarah King	Director	Kent County Chamber of Commerce
Local business & industry representative	Dan Lessard	Assistant Vice President of Human Resources	Dixon Valve
	Eric Lemon	Manufacturing Training Manager	Dixon Valve
	Taylor Hudson	Organizational Development Specialist	Dixon Valve

OTHER

Role	Name	Title	Affiliation
Parent or caretaker	Monica Fuchs	Parent	Kent County High School
Student	TyRay Johnson	Parent	Kent County High School
Representative of Special Populations	Sharon Hamilton	Building Coordinator for Special Education	Kent County High School
Out-of-School youth / unhoused youth / corrections	Mary Jones	Pupil Personnel Worker	Kent County Public Schools

* Not required under Perkins V but recommended to include.

Component A: Labor Market Alignment

OVERVIEW

Career programming in Maryland must address the economic and workforce development needs of the state and align to high-skill, high-wage, and/or in-demand (HS/HW/ID) careers. These are defined as:

High -Skill — Careers that: (1) require previous work -related skills, knowledge, or experience of one or more years; (2) have a Specific Vocational Preparation (SVP) rating of at least six as defined by [O*Net](#); (3) require state or federal licensing or industry -recognized certification; or (4). require a recognized postsecondary credential or degree.

High -Wage — Careers that exceed the state average annual wage of \$69,750 in 2022.

In -Demand — Careers with a growth rate over ten years of at least 7% or a two -year occupational projected growth of 2.5%.

The Division of Career and College Readiness has evaluated all secondary and postsecondary State and Local approved POS against these HS/HW/ID criteria. Ideally, your CTE POS will meet all three of the criteria, or at least one to qualify for funding. You may access additional information on these programs at the [Maryland CTE Data website](#). The Maryland Department of Labor has also developed [Long Term Occupational Projections](#) thru 2030, which can help you to identify high demand careers and the education and job training necessary to secure them.

ACTIVITY A.1: TAKING STOCK

The following table details the CTE POS offered at your district in the 2022-23 school year, their alignment with high-skill, high-wage, and in-demand careers, and the relative proportion of students concentrating in each area. Although it is not *required* that each POS meet the criteria for high-skill, high-wage, *and* in-demand, it should be the goal of each POS to do so.

Note : Prior to sharing this table with your stakeholder team, you will need to suppress numbers and percentages in cell that do not include the minimum number of students required to protect student confidentiality. Maryland state policy is to suppress data for cells or percentages that are based on fewer than 10 students. Please consult your district policies to determine which data cells should be suppressed and how this information should be communicated (e.g., by entering 'LOW N' or '<10

Program	Alignment to current statewide industries (enter ✓)			Number of CTE participants 2022-23	Percent of all CTE Participants 2022-23
	HS	HW	ID		
Example				###	100%
Curriculum for Agricultural Science Education (CASE) (010050)	X	X	X	62	12.5%
Teacher Academy of Maryland (130150)	X	X	X	21	4.2%
Pre-Engineering (PTLW)(155000)	X	X	X	91	18.3%
Fire Emergency Medical Training/ High School Cadet (MFRI) (430250)	X		X	0	0%
Construction Trades Professions-Carpentry (465200)	X	X		59	11.9%
Automotive Technology Maintenance and Light Repair Plus (NATEF) (470645)	X	X	X	66	13.3%
Academy of Health Professions-Certified Nursing Assistant (510050)	X		X	84	16.9%
Food and Beverage Management (Prostart) (520955)	X	X	X	89	17.9%
Apprenticeship Maryland Program (860500)	X			0	0%

Comprehensive Local Needs Assessment: Secondary Schools

Audiovisual Communications and Broadcast Technologies (FM Broadcast) (100299)			X	26	5.2%
---	--	--	---	----	------

Are you planning on adding any new or phasing out any existing POS in the upcoming year? If so, which CTE POS(s) are you considering and why?

Program/CIP Code	Adding or deleting	Rationale for change
Information Technology- Computer Science / 110190	Adding	KCPS is adding this local pathway to assist in meeting the 45% goal in Blueprint. KCPS currently offers three of the four computer science courses required for the pathway and has obtained board approval to offer the fourth course as the pathway completer course.

ACTIVITY A.2: ASSESSING PROGRAM ALIGNMENT TO LABOR MARKET AND INDUSTRY NEEDS

Based on a review of the CTE POS data for high-skill, high-demand, and in-demand standards, rate each statement as a strength or area for improvement. Provide an explanation for any answer with which you identify as an 'area for improvement.'

	Meets	Area for Improvement	Explanation
Our CTE stakeholders review workforce and economic data to assess current and anticipate future local employment needs in HS/HW/ID industries	X		The CTE Coordinator for KCPS meets regularly with industry leaders, the Upper Shore Workforce Investment Board, Chesapeake College, and other CTE Directors on the Upper Eastern Shore. These engagements guide assessment of POS alignment to industry.
Processes are in place to identify and expand high school level registered apprenticeship opportunities.	X		The CTE Coordinator for KCPS and the KCPS Career Counselor consistently engage with the Bureau of Economic Development and Tourism and the Chamber of Commerce to identify new and existing businesses. KCPS added two apprentices in Spring 2024, the first apprentices in KCPS since the 2018-19 school year. KCPS projects that an additional ten students will enroll for Fall 2024.
Processes are in place to update or phase out CTE POS that do not align with HS/HW/ID industries	X		KCPS relies on its stakeholder group to inform the direction of its programs. However, KCPS is not electing to phase out any programs at this time.
A majority of our students are concentrating in POS aligned to HS/HW/ID industries	X		KCPS consistently monitors student enrollment across all CTE pathways. This is done through cohort spreadsheets produced by the data specialist for KCPS.
Processes are in place to recruit business and industry stakeholders to participate on Program Advisory Committees	X		KCPS has seen increased engagement with industry and collegiate stakeholders through the advent of its 6-12 Career Counseling Program. KCPS has provided several opportunities for these partners to tour the CTE program and to discuss data related to CTE.

ACTIVITY A.3: REFLECTION

Based on your responses in this component of the needs assessment guide, consider the following questions:

1. What is your rationale for offering programming that is not fully aligned with high wage, high skill, and in-demand criteria you rated in Activity 1.1)?

An analysis of [available data](#) demonstrates that each POS offered in KCPS aligns with at least criteria for high wage, high skill, and in-demand. 50% of the POS meet all three criteria, and 80% meet at least two of the criteria. The only programs meeting just one of the criteria are Apprenticeship Maryland (860500) and Audiovisual Communications and Broadcast Technologies - FM Broadcast (100299). KCPS continues to offer Apprenticeship Maryland because it provides a robust opportunity for students to gain work-based learning experience and on-the-job mentoring and is helping the district to reach the 45% goal outlined in the Blueprint. KCPS continues to offer Audiovisual Communications and Broadcast Technologies - FM Broadcast as this program is a staple of the community and just celebrated its 50th year on air. This program functions as a legitimate business and largely generates its own revenue to support the operation of the program.

2. What are the top five priorities you will address in the coming year to update or phase out misaligned CTE programs and/or expand student participation in CTE programming aligned with HW/HS/ID careers?

NOTE: Sample strategies that may help you align your priorities, are listed in Appendix A.

1. Introduce new programs that are aligned to Maryland or Regional employment projections, for example Information Technology - Computer Science (110190)
2. Recruit industry partners in high -wage, high -skill, in -demand fields to offer guidance on new and existing program design and adoption
3. Review related program offerings and program resources in high -performing Maryland districts
4. Offer professional development to assist CTE educators in upgrading their curricular resources
5. Consult with local businesses to offer workplace tours or externships for instructors

Component B: Student Participation and Persistence

OVERVIEW

To ensure that all students have equitable access to CTE programming, MSDE encourages districts to assess rates of student participation and persistence in CTE overall, as well as within each POS offered for the state approved Career Clusters. Enrollments also should be tracked using the disaggregates for student gender, race-ethnicity, and special population status detailed in Perkins V.

ACTIVITY B.1: TAKING STOCK

The following table asks you to enter the number and percentage of 2023 high school graduates statewide and in your district who participated in CTE coursework and persisted to achieve concentrator status in CTE programming, disaggregated by selected student demographics.

Please use the district heat maps to complete the requested information. If you have any questions regarding the data entry, please contact MSDE staff.

Once you have entered the data, review the information to determine whether there are any concerning gaps in student participation and/or persistence. Note that small numbers of students may have large impacts on your participation and concentrator status rates; consequently, use care when interpreting data with cell sizes of less than 10 students.

Notes:

Data Suppression: Prior to sharing this table with your stakeholder team, you will need to suppress numbers and percentages in cell that do not include the minimum number of students required to protect student confidentiality. Maryland state policy is to suppress data for _____ cells or percentages that are based on fewer than 10 students. Please consult your district policies to determine which data cells should be suppressed and how this information should be communicated (e.g., by entering 'LOW N' or '<10 students' in effect _____ d cells).

2023 Statewide Graduate Data: Currently, MSDE does not disaggregate four _____ -year cohort participation in CTE. However, we have identified this area as a growth opportunity in data _____ collection and reporting.

Student Group	2023 Graduates Statewide				2023 Graduates in Your District			
	Number	Percent	Percent participating in CTE	Percent of participants who achieved concentrator status	Number	Percent	Percent participating in CTE	Percent of participants who achieved concentrator status
All 2023 Graduates (4-year cohort)	58,206	85.81%			135	94.24%	92.5%	75.6%
Gender								
Male	28,576	82.60%			66	49%	51%	53%
Female	29,581	89.16%			69	51%	49%	47%
Race-ethnicity								
American Indian	140	85.89%			NA<10	NA<10	NA<10	NA<10
Asian	4,559	96.16%			NA<10	NA<10	NA<10	NA<10
Black	18,648	84.68%			22	16.3%	21%	17%
Hispanic	10,446	71.37%			15	11.1%	11%	10%
Multi-race	2,485	89.36%			NA<10	NA<10	NA<10	NA<10
White	21,838	93.38%			84	62.2%	62%	68%
Special Populations								
Economically disadvantaged	17,049	80.83%			86.4	64%	62%	57%
Multi-lingual learners	3,140	55.78%			NA<10	NA<10	NA<10	NA<10
Individuals with disabilities	4,697	69.47%			20	15%	13%	13%
Nontraditional fields	-	-			NA	NA	22%	5%
Single parents	-	-			NA<10	NA<10	NA<10	NA<10
Out of workforce	-	-			NA<10	NA<10	NA<10	NA<10
Unhoused Individuals	833	62.03%			NA<10	NA<10	NA<10	NA<10
Youth in foster	66	40.24%			NA<	NA<	NA<10	NA<10

care					10	10		
Youth with parent in military	1,028	95.10 %			NA<10	NA<10	NA<10	NA<10
Migrant students	-	-			NA<10	NA<10	NA<10	NA<10

Note that since special population status is not mutually exclusive (i.e., a student may belong to more than one category), these data may not sum to 100%.

ACTIVITY B.2: ASSESSING YOUR PROGRAM

Based on a review of the overall CTE program data—relative to the state and across student groups—rate each statement as a strength or area for improvement. Provide an explanation for any answer with which you identify as an ‘area for improvement.’

	Meets	Area for Improvement	Explanation
Our district ensures all students—irrespective of gender, race, or special population status—are provided unbiased, inclusive, and non-discriminatory information about CTE courses and POS		X	KCPS advertises CTE programs in a variety of ways including through CTE rotation days for 9th grade and a CTE tour for 8th grade. All CTE programs are defined in the KCHS Program of Study. However, no outreach is done to specific groups that are under-represented in specific CTE pathways. Through the use of the grades 6-12 career counselor, KCPS seeks to provide more tailored information about CTE programs to under-represented groups including female students, black students, and Hispanic students.
Our district has processes in place to recruit students traditionally underrepresented in CTE to improve diversity in CTE POS		X	While no student groups are over or under-represented in CTE overall, KCPS would like to increase the diversity of the students in specific programs including Project Lead the Way Engineering, Teacher Academy of Maryland, and Agricultural Sciences.
Processes are in place to ensure that students traditionally underrepresented in CTE have options to <u>enroll</u> in CTE POS	X		There are no clear barriers to student enrollment in any CTE program. KCPS has noted over-representation of Black/African American Students in Food and Beverage Management and over-representation of white students in the Agricultural Sciences pathway. KCPS does not believe this is due to students lacking the opportunity to enroll but to a lack of awareness of other opportunities.

	Meets	Area for Improvement	Explanation
Processes are in place to ensure that students traditionally underrepresented in CTE <u>persist</u> in CTE POS once enrolled		X	KCPS CTE instructors develop relationships with students in their programs to support student retention in the pathway. KCPS sees fairly consistent retention rates across student groups; however, KCPS is concerned with the disparity between the percentage of participation and concentration among nontraditional fields. KCPS would like to explore strategies for supporting retention of nontraditional students in CTE programs.
Processes are in place to ensure that all eligible students have equitable access to career-based learning experiences	X		Through the 6-12 career counseling programs, students have routine access to a career counselor in the building.
Career guidance and advisement services are provided to student prior to enrolling in a CTE POS	X		In the 2023-24 school year, the grades 6-12 career counselor meets with nearly all students in grades 6-10. The counselor supported students to use the Pathful Explore program to explore their strengths, interests, and values and to explore career options. The career counselor met individually with all 9th graders to review assessment results and to discuss CTE programs available to them.
All students have access to career planning and support services to help them successfully transition to advanced education and/or the workforce	X		<p>Through the 6-12 career counseling programs, students have routine access to a career counselor in the building.</p> <p>Furthermore, students in the Special Education program receive additional career counseling through the Special Education case manager. The case managers work individually with students to form a transition plan using the Pathful Explore program.</p>

ACTIVITY B.3: REFLECTION

Based on your review of your data and responses in Activity B.2, consider the following questions:

1. Are there any student groups in your district that have concerning gaps in their CTE participation or persistence rates? If so, which groups are underperforming?

KCPS is concerned about:

- the overrepresentation of Black/African American students in the Food and Beverage Management program (+37% concentrating)
 - the underrepresentation of Black/African American students in Automotive Technologies (-21% concentrating), Teacher Academy of Maryland (-21% concentrating), and Agricultural Sciences (-21% concentrating)
 - the underrepresentation of female students in Pre-Engineering (-34% concentrating), CONstruction Trades (-51% concentrating), and Automotive Technologies (-41% concentrating)
 - the underrepresentation of male students in Teacher Academy of Maryland (-39% concentrating) and Academy of Health Professions (-45% concentrating)
2. What are the top five priorities you will address in the coming year to expand student participation in CTE programming and reduce participation and/or persistence gaps among students? *[Note: At least one priority area you identify should address the needs of gender, race -ethnicity, or special population groups.]*

NOTE: Sample strategies that may help you align your priorities are listed in Appendix B.

1. Increase the intentional exposure of all middle school students and students in 9th grade to the availability of CTE programs at the high school level
2. Design experiences for underrepresented groups to learn about the role of their group in underrepresented CTE pathways (i.e., Men in nursing, men in education, women in engineering, Black/African Americans in education, Black/African Americans in Automotive Technologies)
3. Design experiences for underrepresented groups to learn about specific CTE pathways
4. Conduct focus groups to explore why students from some gender or racial -ethnic groups are overrepresented in certain CTE programs

ACTIVITY B.4: CAREER CLUSTER PARTICIPATION AND PERSISTENCE

Student participation and persistence rates may differ across Career Clusters. Use the following tables to enter the number and percentage of 2023 CTE students in your district enrolled by cluster and student demographics.

Most of this information can be found in your CTE Storyboards located on MoveIT. Work with your district data team to find any other requested information. You may contact staff at MSDE if you have questions about the data to be entered.

Note : Prior to sharing this table with your stakeholder team, you will need to suppress numbers and percentages in cell that do not include the minimum number of students required to protect student confidentiality. Maryland state policy is to suppress data for cells or percentages that are based on fewer than 10 students. Please consult your district policies to determine which data cells should be suppressed and how this information should be communicated (e.g., by entering 'LOW N' or).

CAREER CLUSTER KEY:

AMC: Arts, Media, and Communication

BMF: Business Management and Finance

CD: Construction and Development

CRD: Career Research and Development

CSHT: Consumer Services, Hospitality, and Tourism

EANR: Environmental, Agricultural, and Natural Resources

HB: Health and Biosciences

HRS: Human Resource Services

IT: Information Technology

MET: Manufacturing, Engineering, and Technology

TT: Transportation Technologies

CRD: (Career Research and Development & Apprenticeship MD)

Race/Ethnicity Key:

AI: American Indian/Alaskan Native

A: Asian

H: Hispanic

B: Black/African American

W: White

PI: Hawaiian/Pacific Islander

M: Multi -Racial

Special Populations Key:

SWD: Students with Disabilities

ED: Economically Disadvantaged

NT: Non -Traditional

SP: Single Parents

OOW: Out of Workforce

MLL: Multilingual Learners

MV: Students served under the McKinney -Vento Act (Unhoused)

FY: Foster Youth

AD: Active Duty

MT: Migrant

CLUSTER-LEVEL DATA: USE THIS TABLE TO PUT IN YOUR NUMBERS

[illegible]

CLUSTER-LEVEL DATA: USE THIS TABLE TO PUT IN YOUR PERCENTAGES

For the “Enrollment” column, the denominator is your total CTE Enrollment from the previous table total cluster enrollment.

. For all other columns, the denominator is your

WBL																					

Review your cluster-level data and consider the following questions:

1. In which clusters does it appear that students in your district are not participating at rates equivalent to their representation in the population? What factors might be affecting their decisions?

KCPS has identified several areas of concern related to proportionate student representation in program clusters. These include:

- Disproportionate male and female enrollment in Construction and Development (Construction Trades-Carpentry), Health and Biosciences (Health Occupations), and Human Resources (Teacher Academy of Maryland).
- Disproportionate enrollment of Black/African American students in Consumer Services, Hospitality, and Tourism (Food and Beverage Management); Environmental, Agricultural, and Natural Resources (Agricultural Sciences); Transportation Technologies (Automotive Technologies); and Manufacturing, Engineering, and Technology (Pre-Engineering).
- Disproportionate enrollment of students with disabilities in Construction and Development (Construction Trades-Carpentry)

These disproportionalities may stem from a variety of factors including:

- Insufficient exposure to CTE programming and the benefits of program participation for Black/African American students and students with disabilities
- Stereotypes about which programs are the right fit for different student groups
- Insufficient support for diverse student populations to be successful across all CTE programs

2. In which clusters does it appear that all students participating are not persisting at equivalent rates? What factors might be affecting their decisions?

Arts, Media, and Communications and Consumer Services, Hospitality, and Tourism appear to be the clusters where students are not persisting at equivalent rates. There is a smaller percentage of students concentrating in these programs than there are enrolled. This could be due to lack of awareness of what these programs actually involve. This would result in students changing their plan after initial enrollment in the program.

3. How might student participation and persistence differ by program of study or cluster? Which programs of study or career clusters are under or over-performing?

Three programs (AMC -1.9%, CSHT -6%, MET -7.3%, and TT -.5%) report lower percentages of concentration than percentages of enrollment. In the case of MET, this may be due to the introductory course being a technology education requirement. The other programs (CD +2.6%, HB +5.4%, EANR +2.9%, HRS +5%) report increased percentages of concentration compared to percentages of enrollment.

4. What are the top five priorities you will address in the coming year to expand student participation in CTE programming and reduce participation and/or persistence gaps among students? [*Note: At least one priority area you identify should address the needs of gender, race -ethnicity, or special population groups.*]

NOTES:

- A. Depending on your program offerings, you may find it necessary to do a more granular analysis of your data to assist in identifying priorities.
- B. Sample strategies that may help you align your priorities, are listed in Appendix B.

1. Increase enrollment of underrepresented student groups through target outreach and recruitment: KCPS has noted disproportionately high enrollment of Black students in Food and Beverage Management and of Students with Disabilities in Construction Trades. KCPS would like to ensure that these student groups receive adequate information about other CTE programs.
2. Increase participation in Teacher Academy of Maryland with an emphasis on students who are Black, Hispanic, or are students with disabilities. KCPS has noted a disproportionately low enrollment of these student groups in the Teacher Academy of Maryland.
3. Increase student persistence in Audiovisual Communications and Broadcast Technologies and Food and Beverage Management. KCPS has noted lower rates of student persistence in these programs.
4. Teacher Professional Development: KCPS would like to enhance the capacity of teachers in CTE to make learning meaningful for all student groups. This might include professional development on student engagement, project-based learning, or culturally responsive teaching.

Component C: Program Performance

Federal law requires that you collect data on the performance of CTE concentrators. The accountability indicators cover a range of outcomes to help you assess whether students are making educational progress, graduating, and making successful transitions into advanced postsecondary education and training or employment. These include:

1S1: Four-year graduation rate: The percentage of CTE concentrators who graduate high school, as measured by the four-year adjusted cohort graduation rate used in ESSA.

2S1: Academic proficiency in reading/language arts: The percentage of CTE concentrators achieving proficiency on the Districtwide high school reading/language arts assessment.

2S2: Academic proficiency in mathematics: The percentage of CTE concentrators achieving proficiency on the Districtwide high school mathematics assessment.

2S3: Academic proficiency in science: The percentage of CTE concentrators achieving proficiency on the Districtwide high school science assessment.

3S1: Post-program placement: The percentage of CTE concentrators who are in postsecondary education or advanced training, military service, a national community service program, or employed in the second quarter after exiting from secondary education¹

4S1: Nontraditional program concentration: The percentage of CTE concentrators in CTE programs of study that lead to non-traditional fields.

5S1: Attained Recognized Postsecondary credential: The percentage of CTE concentrators graduating from high school who met or exceeded proficiency on industry standards to attain a recognized postsecondary credential.

5S4a: Technical Skill Attainment: The percentage of CTE concentrators graduating from high school who met state recognized CTE standards, including earning and industry-recognized credential.

5S4b: Apprenticeship: The percentage CTE concentrators graduating from high school who participated in an apprenticeship.

To establish performance expectations, MSDE has set performance targets for each indicator based on an analysis of statewide data. All providers are expected to achieve the performance targets established for each indicator. Moreover, to ensure that all students make progress, you are expected to monitor performance on an annual basis.

In the following table, use your District's heatmap to fill in your District's performance on the federal measures. On the heatmap, cells highlighted in green indicate your district met or exceeded the statewide performance level; yellow indicates your district performance did not meet the performance level but was within 90% of the target; and red indicates that your district did not meet the performance level and was less than 90% of the target. Districts failing to achieve the state

¹Note: this is a lagged indicator, meaning that data should be reported on graduates for the previous academic year. For example, you should report placement data for 2022 graduates in 2023 (i.e., outcomes achieved between October-December 2022).

performance level are expected to develop a program improvement plan to bring them into compliance.

DISTRICT PERFORMANCE BY STUDENT GROUP

	Federal Accountability Indicator 2023 Graduates								
	1S1	2S1	2S2	2S3	3S1*	4S1	5S1	5S4a	5S4b

* Data for the 3S1 indicator reflect outcomes for 2022 graduates 6 months following their graduation.

ACTIVITY C.1: ASSESSING PROGRAM PERFORMANCE

	List
Looking at <i>overall performance</i> , on which indicators are you <u>substantially underperforming</u> * the district performance target?	2S1 (Academic Proficiency in ELA) 2S2 (Academic Proficiency in Math) 4S1 (Nontraditional Program Concentration)
Looking at <i>overall performance</i> on which indicators are you <u>substantially exceeding</u> the district performance target?	1S1 (Four year graduation rate) 2S1 (Academic Proficiency in ELA) <i>*for female and white students only</i> 5S1 (Attained Postsecondary credential) 5S4a (Technical Skill Attainment)

* Substantially underperforming is defined as achieving an outcome that is less than 90% of the district performance target, and substantially over-performing is achieving an outcome that is more than 110% of the district performance target.

ACTIVITY C.2: DETERMINING ROOT CAUSES

- For each indicator for which you are substantially underperforming the district performance target, identify the key factors that might affect student performance, including any disparities or gaps in performance by program. Ideally, these factors should be the primary drivers of the results that you see.

2S1 (Academic Proficiency in ELA)

District performance on literacy proficiency in KCPS is nearly 10% below the state performance target, and the literacy proficiency rate among males (-15.3), Black students (-28.3), Hispanic students (-32.3), and students with disabilities (-37.3) is especially concerning. Key factors impacting this disparity may include lack of diverse teachers for ELA and lack of training on supporting literacy proficiency among diverse groups of students. Lack of engaging or relevant instructional practices may also be a factor.

2S2 (Academic Proficiency in Math)

District performance on math proficiency in KCPS is just over the the state performance target. However, proficiency levels among males (-9), Black students (-38), multilingual students (-48), and students with disabilities (-48) are concerning. Key factors impacting this disparity may include lack of diverse teachers for math and lack of training on supporting math proficiency among diverse groups of students. Lack of engaging or relevant instructional practices may also be a factor.

4S1 (Nontraditional Program Concentration)

District performance on nontraditional program concentration is nearly 22% below the state performance target. KCPS has noted higher levels of disproportionality among male students (-23.7) and white students (-22.7). Key factors contributing to this disparity may include inadequate marketing of nontraditional careers to students

and an absence of nontraditional instructors in CTE.

2. The data provided reflect the performance of all students within your district. Remember that aggregate data can hide considerable variation. As you think about strategies to improve performance, consider how program performance might differ within programs of study. Might some programs be performing above or below the site average?

2S1 (Academic Proficiency in ELA)

- Hispanic students are underperforming in Teacher Academy of Maryland, Project Lead the Way Engineering, and Health Occupations.
- Black students are underperforming in Health Occupations.
- Female students are underperforming in Automotive Technologies.
- Male students are overperforming in Health Occupations and Teacher Academy of Maryland.
- Hispanic students are overperforming in Automotive Technologies.
- Black students are overperforming in Project Lead the Way Engineering.
- White students are overperforming in Food and Beverage Management.

2S2 (Academic Proficiency in Math)

- Hispanic students are underperforming in Agricultural Sciences.
- Black students are underperforming in Health Occupations.
- Male students are underperforming in Agricultural Sciences.
- Female students are overperforming in Agricultural Sciences.
- Male students are overperforming in Teacher Academy of Maryland and Health Occupations.
- White students are overperforming in Construction Trades and Health Occupations.

3. Resource constraints may affect the activities you might undertake. What might be the most efficient and effective approach to making changes (e.g., taking into consideration the relative size of your program enrollments?)

Due to the small size of the programs at KCHS and due to declining enrollment, CTE instructors have historically operated their programs with minimal funding.

Given the forecasted increase in funding for CTE in KCPS, we do not anticipate any constraints. However, KCPS would like to investigate the use of instructional assistants in CTE classrooms. Given the hands-on nature of the learning in these classrooms, an instructional assistant would allow for increased supervision of students and consequently increased engagement with tools of the trades.

Furthermore, KCPS would like to maximize its relationship with industry partners by providing more opportunities for students to engage in work-based learning related to their CTE programs, increased exposure to industry professionals in the classroom, and by procuring equipment from industry partners during periods of upgrade.

4. What are the top five priorities you will address in the coming year to improve student performance outcomes on indicators on which you are substantially underperforming? [*Note: At least one priority area you identify should address the needs of gender, race -ethnicity, or special population groups.*]

NOTE: Sample strategies that may help you align your priorities, are listed in Appendix C.

1. Black students are underperforming in literacy and math proficiency. KCPS will seek to increase proficiency levels among this group. Strategies may include culturally responsive teaching professional development and increased support through the CCR Student Support Pathway. KCPS will also explore embedding support at the middle school level to encourage Black students to access more rigorous instructional opportunities at the high school level.
2. Hispanic and Multilingual students are underperforming in literacy and math proficiency. KCPS will seek to increase proficiency levels among this group. Strategies may include culturally responsive teaching professional development and increased support through the CCR Student Support Pathway. KCPS will also explore embedding support at the middle school level to encourage Hispanic and Multilingual students to access more rigorous instructional opportunities at the high school level. KCPS will also seek Spanish language resources to foster success among students whose primary language is Spanish.
3. Students with disabilities are underperforming in literacy and math proficiency. KCPS will seek to increase proficiency levels among this group. Strategies may include implementing a Career and Academic Support class to support students with disabilities to gain proficiency. KCPS will also continue to enhance its co-teaching model to ensure the use of special educators in core classes is effective.

Component D: Recruiting, Developing, and Retraining CTE Educators

The quality of your CTE programming depends upon the skills of your workforce. This extends to all members of your educational team, including secondary teachers, support staff, paraeducators, professional school counselors, and more. Ideally, staff should also be representative of the populations served and retained over time to promote program sustainability.

ACTIVITY D.1: REVIEW DATA ON CURRENT STAFF

Reviewing current staff demographics is critical to understanding where there are opportunities to strengthen staff skills and diversify your workforce. Create a separate table for each CTE Career Cluster or program of study offered.

NAME OF CAREER CLUSTER OR CTE POS: Curriculum for Agricultural Science Education (CASE)					
Staff demographic	Percentage of 2022-23 staff	Percentage of students participating in CTE programming 2022-23	5-year staff turnover rate (Percentage of staff who did not return for years 2018-19 thru 2022-23)		
			Teachers	Support staff/ paraprofessionals	Professional School Counselors
Gender

ACTIVITY D.2: ASSESS EDUCATOR SUPPORT OPPORTUNITIES

It's critical to create consistent opportunities that allow your staff to maintain their licensure and grow within this field. Professional development is a key strategy for retention and ensuring a high-quality workforce.

Comprehensive Local Needs Assessment: Secondary Schools

Based on your knowledge of professional licensure requirements and the availability of content-specific professional development opportunities across clusters, rate the extent to which you strongly agree or disagree with each statement. Where applicable, please add an explanation for your assessment with examples.

	Strength	Area for Improvement	Explanation
Staff acquire content specific professional development required to maintain licensure.	X		Only one CTE instructor in KCPS does not currently possess a proper Maryland teaching license. This instructor has been supported to earn the licensure through the KCPS Grow Your Own program and is expected to earn the licensure in Fall 2024. All other CTE instructors possess the proper licensure.
Staff are aware of the requirements to maintain endorsement.	X		The KCPS Human Resources department visits Kent County High School twice per year for their HR on the Road program. During this time, CTE staff are able to meet with HR representatives to review their certification requirements.
Staff have equal access to content-specific professional development opportunities across industries.		X	While content-specific professional development opportunities are available to all CTE instructors, CTE instructors pursue these opportunities at different rates. KCPS seeks to increase the frequency of staff professional development across all CTE programs.
Data are collected on the effectiveness of professional development to ensure it meets the needs of educators.		X	There is currently no record of professional development opportunities staff have participated in in recent years, nor is there a record of the effectiveness of the training. As KCPS increases the frequency of content-specific professional development for CTE instructors, a uniform approach to collecting data on training effectiveness will be employed.

ACTIVITY D.3: REFLECTION

Based on your responses in this section of the needs assessment guide, consider the following questions:

1. Does your staff demographic characteristics reflect the students they serve across programs of study?

Demographic characteristics are mostly consistent among teacher and students in the following programs:

- Agricultural Sciences
- Audiovisual Communications and Broadcasting Technologies
- Automotive Technologies
- Project Lead the Way Pre-Engineering
- Teacher Academy of Maryland

KCPS has identified the following demographic characteristic disparities between teacher and students:

- Construction Trades - Carpentry:
 - 100% of teachers are white while 45% of students are nonwhite.
- Food and Beverage Management:
 - 100% of teachers are male while 49% of students are female.
 - 100% of teachers are white while 58% of students are nonwhite.
- Health Occupations:
 - 100% of teachers are white while 47% of students are nonwhite.

2. Are instructors adequately credentialed, including licenses, certifications, or endorsements for the courses they're teaching? If not, what mechanisms can be put in place to get them endorsed, or what recruitment efforts are necessary to attract properly credentialed instructors?

One instructor has not been adequately licensed. This instructor has been provided a Grow Your Own program for conditionally licensed instructors and is expected to complete the program in Fall 2024.

3. To what extent does your school offer regular, substantive content-specific professional development opportunities? Do all staff members have equal awareness of, and opportunities to participate in content-specific professional development opportunities, necessary to maintain their industry credentials and endorsements?

KCPS offers rich professional development opportunities for staff, but there is currently no comprehensive professional development program for CTE instructors. CTE instructors pursue professional development opportunities at varying rates.

4. What barriers exist to offering and participating in content-specific professional development?

KCPS offers CTE in a comprehensive high school setting. As such, CTE instructors have historically been required to attend building-wide professional development along with core content teachers. This has limited the amount of time CTE teachers have to pursue content-specific professional development. Further, the CTE director for the county also coordinates other programs and has not always been available to facilitate professional development for CTE instructors.

5. What are the top five priorities you will address in the coming year to improve student performance outcomes on indicators on which you are substantially underperforming? [*Note: At least one priority area you identify should address the needs of gender, race -ethnicity, or special population groups.*]

NOTE: Sample strategies that may help you align your priorities, are listed in Appendix D.

1. Provide support for all CTE instructors to engage in professional development opportunities specific to their programs.
2. Coordinate opportunities for CTE instructors to tour other technical high schools and to connect with other CTE instructors outside of the county.
3. Provide targeted support to new CTE instructors
4. Increase the frequency of informal and formal classroom observations, including the use of pre-conferences, to increase the level of feedback provided to instructors
5. Increase the quality of the CTE workplace through enhancements to classroom spaces, CTE branded materials for instructors, and other wellness incentives

Next Steps

With the completion of the CLNA), you are now poised to embark on the crucial next phase of securing Perkins V funding. This stage involves translating the insights and findings from the CLNA into actionable and strategic plans.

UTILIZING CLNA ANALYSIS FOR LOCAL PERKINS APPLICATION S.M.A.R.T.I.E. GOAL SETTING

The first step for LEAs is to use their CLNA analysis to formulate S.M.A.R.T.I.E. goals. These goals should be Specific, Measurable, Achievable, Relevant, Time-bound, Inclusive, and Equitable. The essence of this process is to ensure that the goals set for CTE programs are not only aligned with the identified needs and opportunities but are also focused on inclusivity and equity.

LEAs should look at areas highlighted in the CLNA, such as skill gaps, program areas needing enhancement, and disparities in student participation and success rates. From here, specific goals can be set. For example, if the CLNA indicated a gap in technology-related skills among students, a S.M.A.R.T.I.E. goal could be to increase enrollment in technology-focused CTE programs by 15% within the next two years while ensuring equitable access for all student groups.

CONNECTING GOALS TO AN ANNUAL BUDGET FOR PERKINS FUNDING

Once S.M.A.R.T.I.E. goals are established, LEAs must then align these objectives with an annual budget for Perkins funding. This budgeting should be a reflective exercise, considering not just the cost of program enhancements but also the broader resources required to meet these goals. This includes faculty development, curriculum updates, equipment purchases, and any necessary infrastructure improvements.

For instance, if one of the goals is to enhance a manufacturing CTE program, the budget may include expenses for new machinery, professional development for educators to teach advanced manufacturing techniques, and outreach initiatives to increase program enrollment.

ENSURING ALIGNMENT WITH PERKINS REQUIREMENTS

Throughout this process, LEAs need to ensure that their plans align with the requirements of the Perkins V Act. This means that the goals, strategies, and budgeted activities should contribute to developing more effective and equitable CTE programs, as stipulated by Perkins V.

Appendix A: Sample Strategies for Component A: Labor Market Alignment

PROBLEM: EXISTING CTE PROGRAMS ARE NOT ALIGNED TO MARYLAND'S LABOR MARKET PROJECTIONS.

Root Cause	Strategy	Sample Activities	Resource	Description
The district maintains programs that have been historically offered but are no longer aligned to Maryland's labor market needs	Sunset programs that are no longer preparing students for high-skill, high-wage in-demand careers	<ul style="list-style-type: none"> Analyze program enrollments, standards, postsecondary pathways, and employers to assess whether sunsetting is warranted. Develop strategy and timeline for sunsetting a program and internal and external communication plans to share information. Explore alternative educational options for students currently enrolled that will allow them to transition to other programs. Consult with the union and educators to arrange transition options, which may include reassignment or retraining. Review state regulations and district policies to identify barriers to sunsetting programs 	How to sunset an educational program	This blog post describes considerations in sunsetting and educational programming, including warning signs of need, considerations before moving forward, and concrete steps to take when a decision to discontinue is made.
	Introduce new programs that are aligned to Maryland or regional employment projections	Review Maryland state and/or regional economic and workforce projections to assess current and future workforce needs	Maryland Occupational Projections 2020-2030	The State of Maryland publishes occupational projections that indicate changes in employment. Use this interactive website to identify careers anticipated to grow in the coming years.
		Recruit industry partners in high wage, high skill, in-demand fields to offer guidance on new program design and adoption	Cheat Sheet: Opportunities for Employer Involvement in CTE	Use this factsheet developed by Advance CTE and ACTE to identify strategies for engaging employers in CTE programming.
		Support existing teachers in updating their certifications in new fields, hire new CTE	Maryland CTE Teacher Certification	Maryland has identified eight types of CTE certifications.

		teachers with requisite skills, and explore other hiring options		Consult this document to see the expectations by CTE Program of Study.
		Review strategies developed by other states to align programs with labor market needs	Georgia Alignment Toolkit	Georgia has compiled a toolkit to help schools align programs to best serve students and local business. Includes a report and worksheets.
The cost of introducing new programs is prohibitive	Identify new funding sources	Use Maryland's Perkins reserve grants to fund new programs.	Maryland Grant Information Guide: Perkins Reserve Grant FY 2024	This document describes how Maryland is using its Perkins Reserve funds to support new programs. Consult it for ideas to pursue funding in future years.
		Seek to braid funding from other federal legislation (e.g., Adult Education, Workforce), federal grant programs (e.g., Institute of Education Sciences (IES) CTE grant competitions), and philanthropic organizations	IES Research Programs Maryland Foundation Grants	The federal government periodically offers funding to support research into CTE programs. Review the IES webpage to get an idea of the types of funding that exist and how you might apply. Foundation grants also may exist within Maryland. See the grants page maintained by the Governor's Grant Office for potential funders
		Work with industry partners to obtain donations of materials and supplies.	Employer Engagement in CTE	This report from Advance CTE profiles ways that employers may support educational programming.

PROBLEM: CTE PROGRAMS ARE NOT PREPARING STUDENTS FOR THE HIGH-SKILL, HIGH-WAGE, IN-DEMAND OCCUPATIONS IDENTIFIED IN STATE EMPLOYMENT PROJECTIONS.

Root Cause	Strategy	Sample Activities	Resource	Description

Appendix B: Sample Strategies for Component B: Student Participation and Persistence

PROBLEM: STUDENTS ARE NOT PARTICIPATING IN CTE PROGRAMMING.

Root Cause	Strategy	Sample Activities	Resource	Description
Students lack awareness of CTE programming and the benefits of program participation	Implement awareness campaigns to inform students about program offerings and benefits	Offer career exploration activities in the middle grades to expose students to career options and the benefits that participation in CTE offers.	Middle School CTE design options and resources	ACTE has developed resources to support educators in expanding CTE options in the middle grades. Offerings include program design principles, a repository of state-level strategies, research studies, examples of ways to implement and improve programs, and podcasts and webinars.
		Schedule informational sessions for entering 9 th grade students to introduce them to school CTE offerings.	Freshman Cruise	Roseburg Public Schools (OR) takes all 9 th grade students on a 'cruise' of CTE offerings to allow students to meet teachers and learn about CTE studies that are available.
		Schedule career fairs and informational events to help students learn about CTE offerings.	Career Fair Options	Gainesville High School (AL) offers students a career fair experience to introduce them to CTE options. See the video to learn about their approach
		Create online assets that	CTE Options at my School	Fairfax County Public

		support students in identifying the CTE opportunities at their school.		Schools (VA) hosts a webpage that helps students learn about CTE programs offered in their school replete with videos and detailed program descriptions.
Families and educators do not appreciate CTE's benefit and discourage youth from enrolling	Improving messaging to families, community groups, and educators to help them understand the benefits CTE confers	Undertake a comprehensive marketing campaign to educate families about CTE	CTE VisionToolkit CTE Marketing Best Practices & Campaigns	Advance CTE has created a 5-part series of issue briefs and posters detailing how CTE contributes to students' success and strengthens our nation's economy. Washington State has developed this playbook detailing strategies and providing resources to promote CTE programs to students, parents, and educators.
		Host CTE Signing Days to celebrate and publicize CTE students who demonstrate their intent to enter a postsecondary institution to continue their studies or take a job with a community employer	CTE Letter of Intent Signing Day: College CTE Signing Day: Employment	Linn Benton Community College (OR) publicly recognizes high school seniors who sign letters of intent to guarantee a spot in the coming semester. Similarly, SkillsUSA holds a national signing day for students planning to enter employment, apprenticeship, or advanced technical training. Calvert Career and Technology Academy (MD) participated in such an event to honor its students.

Students are not provided career guidance that supports them in choosing CTE as an educational pathway.	Educate high school guidance counselors on the benefits that CTE offers and the advanced education and employment options that students may follow.	Develop and conduct professional development for school counselors aimed at increasing awareness and benefits of CTE programs.	<u>School Counselor Playbook: Unlocking Career Success</u>	Unlocking Career Success offers this playbook that includes practical tools, resources, and information to assist counselors in discussing college and career pathways with students.
		Design tools and resources for counselors to use in their career exploration activities with students that highlight CTE offerings.	<u>ACTE High Quality CTE: Student Career Development</u>	ACTE offers webinars, online courses, toolkits, and more designed to support counselors and college/career navigators as they offer guidance to students.

PROBLEM: STUDENTS ARE NOT PERSISTING IN CTE PROGRAMS.

Root Cause	Strategy	Sample Activities	Resource	Description
Historically underrepresented students or those with special needs do not feel welcome in CTE programs.	Remove obstacles to success for students who may need additional supports to persist.	Implement evidence-based strategies to support special population students in succeeding in CTE programming.	<u>Maximizing Access & Success for Special Population Students</u> <u>Strategies for Special Population Success</u> <u>Recruiting Special Populations into CTE: Toolkit</u>	<p>Advance CTE and ACTE have partnered to offer a series of briefs offering definitions, strategies, and guiding questions to assist educators in supporting special population students.</p> <p>The National Alliance for Partnerships in Equity created this brief documenting the obstacles students with special needs face and tools CTE educators may apply to</p>

				<p>recruit and retain youth.</p> <p>The Ohio Department of Education has developed this toolkit to promote the recruitment of special population students into CTE programs. Use it to find ideas for using data and leveraging</p>
		Explore why students from some racial/ethnic groups face obstacles in CTE programming and take steps to address them.	A Guide to Discussing Racial Equity	Review this guidebook to learn how to hold discussions around racial equity to identify.
		Conduct a curricular review to identify and remove unintentional gender bias.	Assessing the Enrollment and Retention of Nontraditional Learners	The Wisconsin Technical College System has developed a tool that educators can use to assess the adoption of promising practices to increasing enrollments and retention of nontraditional learners based on their gender.
Students do not understand the personal and economic benefits of completing advanced coursework and entering the field.	Offer students mentors and real-world workplace experiences to inform their career decisions.	Pair students with mentors who can offer them one-on-one guidance to encourage them to pursue a career.	Partnering Students with Industry Mentors	Parkways School District (MO) connects students with industry mentors who provide guidance, connections, expertise, and course supports intended to motivate youth to solve real-world problems.
		Place students in authentic work-based learning (WBL) experiences, including internships and apprenticeships, to help them learn about the benefits from obtaining	Work-based Learning Toolkit	The U.S. Department of Education created this resource to support state and local program administrators in learning about WBL, engaging employers, measuring

		advanced skills.		outcomes, and scaling effective practices.

PROBLEM: CTE CONCENTRATORS ARE NOT TRANSITIONING INTO ADVANCED TRAINING OR EMPLOYMENT FOLLOWING GRADUATION.

Root Cause	Strategy	Sample Activities	Resource	Description
Students do not understand the steps needed to pursue a career.	Offer workplace experiences and access to career planning tools to help students plan for labor market entry.	Develop in-school and worksite experiences that help students understand the world of work and how to prepare for the transition to employment following graduation.	Maryland's Work-based Learning Continuum	This resource describes the research, common practices to support students in learning about work, and tools to help in career seeking and advancement.

Appendix D: Sample Strategies for Component D: Recruiting, Developing, and Retaining CTE Educators

2024 - 2026

PROBLEM: IT'S DIFFICULT TO RECRUIT CTE EDUCATORS.

Root Cause	Strategy	Sample Activities	Resource	Description
Salaries in the private sectors are higher than for educators in the same field, making it difficult to attract educators.	Develop a range of teacher recruitment strategies that motivate individuals to pursue a CTE instructional career.	<p>Offer bonuses for specific fields or tuition reimbursement for teachers trying to get credentials.</p> <p>Consult with employer advisory groups for potential teacher candidates.</p> <p>Create a 'grow your own' initiative to recruit instructors.</p> <p>Hire a recruiter to identify potential applicants.</p> <p>Conduct outreach to entice retiring industry workers or those seeking a change to enter the field.</p>	36 CTE Teacher Recruitment Strategies	The Oklahoma Department of Career and Technology Education developed this list of CTE teacher recruitment strategies compiled from expert resources.
The pool of CTE educators is small, making it difficult to hire new instructors.	Identify non-traditional pathways for teachers to earn the necessary credentials to become a CTE educator.	<p>Launch a targeted CTE teacher recruitment campaign to motivate educators and industry professionals to become teachers.</p> <p>Engage with local industry to pair experienced workers with current to support their development</p>	Teach CTE Recruitment Toolkit Becoming a CTE Teacher in Maryland	<p>ACTE has created this toolkit to raise awareness of CTE teacher shortages and provide tools to build interest in the profession.</p> <p>The Maryland Division of Career and College Readiness has created this guidance document that summarizes teacher</p>

		<p>and ability to teach in new fields.</p> <p>Explore the multiple pathways to becoming a CTE teacher in Maryland.</p> <p>Develop alternative pathways to certification for individuals with industry experience who lack teaching credentials.</p>		<p>certification options for each CTE program of study offered in the state.</p>

PROBLEM: NEW CTE EDUCATORS LACK ACCESS TO PROFESSIONAL DEVELOPMENT SUPPORTS TO STRENGTHEN THEIR INSTRUCTION.

Root Cause	Strategy	Sample Activities	Resource	Description
Individuals transitioning from industry may lack the pedagogical skills to succeed in the classroom.	Offer targeted professional development to support new CTE instructors in strengthening their teaching skills.	<p>Pair new first and second year CTE teachers with seasoned veterans who can serve as mentors and provide resources and guidance.</p> <p>Facilitate networking events, conferences, and workshops where CTE educators can connect with colleagues, share best practices, and collaborate on innovative teaching strategies.</p>	CTE TEACH Mentor Programs	The Colton-Redlands-Yucaipa Regional Occupational Program (CA) partners with the California Department of Education to offer mentorship supports and professional development for new CTE teachers.
CTE educators are unable to offer academic credit to students taking CTE	Create policy and practices to support CTE educators in offering academic	Pair academic and CTE educators to design courses that allow students	Credit Quandaries: How CTE Instructors can Teach Academic Credit	This document from the Center on Great Teachers & Leaders explores

coursework.	credits.	to earn academic and technical credit simultaneously.		strategies that states and districts are using to enable CTE teachers who lack the necessary credentials to award academic credit for their courses.
-------------	----------	---	--	--

PROBLEM: THE TURNOVER RATE IS HIGHER FOR EDUCATORS WHO IDENTIFY AS PEOPLE OF COLOR.

Root Cause	Strategy	Sample Activities	Resource	Description
Educators who are nontraditional for their field are not recruited and those who begin are not offered supports to persist in the occupation.	Undertake targeted efforts to recruit individuals who are nontraditional for their field.	<p>Promote CTE as a career choice by collaborating with professional organizations to promote CTE teaching careers and develop pathways to teacher preparation programs.</p> <p>Offer professional development targeted to address the needs of nontraditional educators, which include creating inclusive workplaces and offering mentoring and professional learning communities.</p>	<p>State and Local Strategies for Diversifying the CTE Educator Workforce</p> <p>Diversifying the Teaching Profession: How to Recruit and Retain Teachers of Color</p>	<p>This document identifies issues and offers solutions for diversifying the secondary CTE educator workforce. Includes suggested activities to both promote recruitment and retention of teachers.</p> <p>The Learning Policy Institute created this resource to support diversifying the teaching profession overall. Use it to find options that might apply to the CTE workforce.</p>

Appendix E: Additional Resources

While specific evidence-based resources may vary depending on the context and location, several organizations and research institutions focus on educational best practices, including those related to Career and Technical Education (CTE). Here are some resources and organizations that often provide evidence-based insights:

Advance CTE

The State CTE Directors association offers a wealth of resources in their learning center.

Website: [Advance CTE](#)

American Institutes for Research (AIR) - Educator Quality:

AIR conducts research on various aspects of education, and their educator quality resources often include evidence-based strategies for teacher retention.

Website: [AIR Educator Quality](#)

Association for Career and Technical Education (ACTE):

ACTE provides resources and research related to CTE.

Website: [Association for Career and Technical Education](#)

CTE Research Network

Federally funded website focused on strengthening CTE research.

Website: [CTE Research Network](#)

Learning Policy Institute (LPI):

LPI conducts research on education policy and practice. Their reports and publications often include evidence-based recommendations.

Website: [Learning Policy Institute](#)

National Center for Education Statistics (NCES)

The NCES, part of the U.S. Department of Education, offers data and reports on various aspects of education. Their website is a valuable resource for accessing national education statistics.

Website: [National Center for Education Statistics](#)

National Comprehensive Center for Teacher Quality (TQ Center):

The TQ Center focuses on improving teacher quality and effectiveness. They offer resources and research on teacher recruitment and retention.

Website: [National Comprehensive Center for Teacher Quality](#)

RAND Corporation - Education Research:

RAND Corporation conducts research on various education-related topics, and their reports often include evidence-based insights.

Website: [RAND Education](#)

Regional Education Laboratories (RELs):

Funded by the U.S. Department of Education, the RELs conduct research and provide resources on various educational topics.

Website: [Regional Education Laboratories](#)

What Works Clearinghouse (WWC):

WWC reviews and assesses the quality of educational research. While it covers various educational topics, it can be a valuable resource for finding evidence-based practices related to teacher retention.

Website: [What Works Clearinghouse](#)
