TO: Members of the State Board of Education

FROM: Karen B. Salmon, Ph.D.

DATE: February 27, 2018

SUBJECT: Every Student Succeeds Act (ESSA) Update

PURPOSE:

To provide an update on the timeline to share information and gather recommendations from the State Board on the implementation of Maryland's Draft Every Student Succeeds Act (ESSA) Consolidated State Plan and provide a review of the Report Card format.

BACKGROUND/HISTORICAL PERSPECTIVE:

The Maryland State Department of Education (MSDE) submitted the final draft of Maryland's ESSA Consolidated State Plan to the U.S. Department of Education on January 10, 2018. The U.S. Department of Education approved Maryland's Plan on January 16, 2018. The Plan is to be implemented in the 2018-2019 school year.

EXECUTIVE SUMMARY:

Maryland has redesigned the Report Card to provide clear and concise information on the new accountability system. The MSDE staff will share the current draft of this Report Card for Board comment and input. A timeline of remaining decisions around the accountability system will be provided with details on when the Board will receive updates. Finally, examples and methodology outlined in Maryland's ESSA plan for assigning scores will be shared with the Board.

ACTION:

No action is necessary, for discussion only.

Computing Indicator Scores

Per Maryland's ESSA plan and earlier Board decisions, each indicator or measure will be scored using "percent of a whole" or "assigned scores."

Indicator	Measure	Scoring Method
Academic Achievement (all schools)	Math achievement ELA achievement	Percent of a whole
Academic Growth (elementary and middle)	Student growth percentile	Assigned scores
	"Credit for completion"	Science: Percent Social studies: Percent (Middle only) Passing coursework: Assigned
Progress in achieving ELP (all schools)	Progress toward proficiency	Percent of a whole
Graduation rate (high schools)	Four year grad rate Five year grad rate	Percent of a whole
Readiness for postsecondary success (high schools)	On track in 9 th grade "Credit for completion"	Assigned scores
School quality or student success	Chronic absenteeism	Assigned scores
	School survey	Assigned scores
	"Access to"	Assigned scores

Example Scoring: Percent of a Whole

Distribution of ELA PARCC proficiency rate, elementary schools, 2016-17

Actual points will be assigned continuously, not in intervals. For example, the ELA proficiency rate is worth 5 points in the overall accountability system.

A school with a proficiency rate of 55% would receive $.55 \times 5 = 2.75$ points.

Process for Assigning Scores

The purpose of assigning scores is to:

- Ensure meaningful differentiation in measures where data may be clustered, so that not all schools get the same number of points
- Allow MSDE to set a standard for measures where schools with poor performance would still receive a large fraction of points by the “percent” method

Maryland’s ESSA plan explains the process for assigning scores:

- Convene stakeholder groups
- Set standards or “cut points” using historical and current data and research
- Validate the standards to ensure a minimum percentage of schools fall into each of at least two categories (ESSA requires three categories)

Example Scoring: Assigned Scores

Distribution of percent of students not chronically absent, 2016-17

Points are assigned categorically.
